Components

1. Four pieces of thick-cut bacon
2. Two eight-ounce, skinless, boneless chicken breasts pounded to a thickness of one inch
3. half a teaspoon of finely powdered black pepper
4. 1 1/4 tsp. kosher salt, separated
5. 3/4 cup of drained sun-dried tomatoes with a julienne cut in oil and herbs
6. 1/2 cup of shallots, chopped finely
7. four big cloves of coarsely sliced garlic
8. One and a half teaspoons of dried Italian seasoning

9. Half a teaspoon of red pepper flakes
10. TWO TABLEspoONS tomato paste
11. 1/2 cup chicken broth with reduced sodium
12. One cup of thickened cream for whipping
13. One box (20 ounces) of chilled cheese tortellini
14. Grated Parmesan cheese, about 1/2 cup, plus more for garnish
15. freshly torn basil leaves

Directions

Step 1:

Compile every component. Pour salted water into a big pot and heat it to a boil over high heat.

Step 3:

Evenly season the chicken with 1/4 teaspoon salt and pepper while the bacon is cooking. Add the chicken to the skillet with the drippings and cook over medium-high heat for 5 to 6 minutes on each side, lowering the heat if the bottom of the pan turns too black or until the chicken is browned and cooked through (a thermometer inserted into the thickest area of the chicken reads 165 degrees F, or 73 degrees C). Once the chicken is cool enough to handle, transfer it to a platter and let it sit for approximately ten minutes. Dice the chicken into small pieces.

Step 4:

Add the shallot and sun-dried tomatoes and lower the heat to medium. Cook for approximately 2 minutes, stirring often, or until softened. Add the crushed red pepper, garlic, Italian seasoning, and the last teaspoon of salt. Cook for approximately 30 seconds, stirring regularly, or until aromatic. Add the tomato paste and heat, stirring frequently, for approximately a minute, or until the color deepens.

Step 5:

Add the chicken broth and simmer for approximately a minute, stirring and scraping often to deglaze the skillet. Add the cream and simmer over medium heat, stirring. Simmer for 3 to 5 minutes, stirring now and again, until somewhat thickened.

Step 6:

Place the tortellini in the boiling water and cook for 3 to 5 minutes, or until the pasta is soft and **floats** to the top. Set aside a cup of boiling water. Empty.

Step 7:

Add the tortellini, cooked bacon, diced chicken, and Parmesan cheese to the pan with the cream mixture. Cook, tossing and turning continuously, until the sauce is uniformly distributed. To keep a creamy consistency, add 1/4 cup at a time from the conserved cooking water. Split the mixture into 6 bowls and top with plenty of fresh basil and more Parmesan cheese.
